**CRYSTALCUBE**  
**Ceiling Mounting Guide**

## Ceiling Mounting Warnings

The CRYSTALCUBE projector has been design to comply with EN60950/UL950 Safety certifications. In case of CEILING MOUNTING INSTALLATION **it is MANDATORY** to fit properly the four ANGULAR BRACKETS to the corresponding CABINET EDGES in order to assure GLASS CABINET safety.

1. Insert the angular brackets to the corresponding cabinet edges paying attention to insert them with the locking tab oriented towards the bottom of the projector (1). These angular brackets (5 pcs. - 1 as spare part) are supplied with the projector
2. Fix on the bottom of the projector the back plate of the ceiling mounting bracket
3. Fasten the mounting bracket to the ceiling as specified by the supplier.
4. Mount the projector on the ceiling bracket
5. Open the rear cable compartment and connect all the necessary cables, paying attention that these are placed inside of the cable compartment clamp bar
6. Switch on the projector and proceed with the alignment procedure.
7. Lock all the ceiling bracket screws
8. If you need to remove the angular brackets, unfasten the locking tab.

For further details please see the Crystal Cube Installation Guide and User Manual.
