HT 300

SIM2 Grand Cinema line

the reference standard for the future
home theater applications

Preliminary features

- A New 16:9 (1280 x 720) DMD chip by Texas Instruments for 720p native HDTV resolutions
- The highest contrast ratio: 1100:1
- A new, elegant yet aggressive design
- A double keystone adjustment
- A 6 segment color wheel
- A built-in Deinterlacer and video enhancement (DCDi™) powered by Faroudja, a division of Sage Inc.
- Full compatibility with High Definition video sources

the HT300

The revolution is not yet over! Indeed, get ready for the latest addition to the GRAND CINEMA line: the HT 300 projector. The HT 300 sports exceptional performance in an elegant new look. Based on the new HD-1 Digital Micromirror Device™ by Texas Instruments (1280 x 720 pixels), the HT 300 delivers both native support for 720p, as well as 16:9 aspect ratio for a true High Definition capability. Also, the HT 300 features the highest contrast ratio (1100:1), an unbeatable color rendition, a double keystone adjustment, and a new built-in deinterlacer and video enhancement (DCDi™) powered by Faroudja, a division of Sage Inc. All this in a new, sophisticated but sporty casing. Whether you are new to the home theater world, or an avid enthusiast, or, simply prefer superior quality in your life, the HT 300 is the projector for you!
